

Cimex Eradicator

- Safety Cap-exclusive Polti patent.
- Steam nozzle with worldwide Polti patented controlled expansion chamber up to 180° C overheated dry steam outflow .
- Connection for HPMed sanitizing solution single-use bottle placed under the steam nozzle.
- Integrated spacer/stand.
- Ergonomic handle with soft-touch insert.
- Steam release button with safety lock device.

Cimex Eradicator is the technological and ecological solution for the elimination of bedbugs.
The laboratory and field tests show that the flow of overheated steam, generated by Cimex Eradicator, is able to eliminate 100% of the eggs and a very high proportion of the mobile insects with a single treatment.

- No contact with surfaces
- It removes badbugs bad smell

System	Pressurized boiler
Max pressure	4 bar
Pressure switch	Yes
Pressure gauge	Yes
Steam output	Up to 110 g/min
Steam adjustment	Continuous
Boiler material	Stainless steel
Boiler volume	2,9 l
Use capacity	2 l
Steam ready indicator	Yes
Low water level indicator	Yes, acoustic
Vacuum function	No
Parking System	No
Boiler power	1500 W
Nozzle power	750 W
Max power	2250 W
Dimensions (WxDxH)	Ø 36 x 42 cm
Weight	4,9 kg

FEATURES

100% Effective
A single treatment is able to eliminate all the eggs present and a very high proportion of the adult insects and larval stages.

Overheated dry steam up to 180° C
The flow of steam at 180° C is able to eliminate the adult insects, the larval stages and the eggs because it causes their thermal shock.

Without using chemicals
The superheated dry steam can even be delivered in the presence of people.

ACCESSORIES

HPMed for Steam Disinfectant
2 single-use bottles of HPMED sanitising agent

Accessory for sanitising

Concentrating accessory

**Demonstration
DVD**

Use Guide

**Protective
gloves**
with non-slip
finish.
